

## RapidBackup

Simple and easy to use – but action packed with fantastic features! RapidBackup automatically backs up your files safely online.

Pricing: **Only \$50** per PC per year  
Multiple PCs? Contact us for further discounts.

### Completely hassle free

RapidBackup monitors your files as you work, and backs them up as soon as they are saved - so there's no need to remember to back up.

### Easily restore files

Download your files at any time from the web – even deleted files – or restore files easily using our powerful downloadable restore apps.

### Unlimited storage

Your RapidBackup account comes with unlimited storage. So it doesn't matter how many files you've got – we'll back them all up.

### 100% secure

Your backups are private and secure. RapidBackup uses military grade encryption, and your files reside in our state-of-the-art data centers.

## FOR THE MOBILE BUSINESS OPERATOR

# RapidBackup Briefcase

**Need access to your documents from ANYWHERE in the world?**

Purchase the new drive on your computer with additional features called RapidBackup Briefcase

---

Briefcase accounts are an additional **\$40** per PC per year

---

### **The same files everywhere and keep files online or offline.**

Your Briefcase automatically syncs between all of your PCs or Macs. Save a file on one PC and it updates on all of the others in seconds. You can keep Briefcase files on your PC so you can access them offline, or you can store files only online to save space on your computer.

### **View and edit your documents online**

With RapidBackup you can securely access all of your Backup & Briefcase files from any computer, anywhere in the world – all you need is an internet connection! Log in to our powerful web portal and you can view your Office documents from your browser. No need to have Office installed! Files on your Briefcase can be edited from any web browser. Open and edit documents or photos with our built-in web apps and changes are synced to all of your computers!

### **Super fast transfers**

RapidBackup never throttles your bandwidth and uses advanced technology to maximise the speed of your uploads and downloads.

### **Email to RapidBackup**

Email files to your RapidBackup Briefcase and they're automatically stored online and synced between your computers.

### **Works like an external drive**

Your Briefcase appears as a new drive on your PC or Mac. You can use your online files just like you would use a USB stick or hard drive.

*Bonus features for the Social Networker include:*

- ✓ Share files with one click
- ✓ View photos with slideshows
- ✓ Play your music anywhere
- ✓ Stream your music & videos to your iPhone or iPad
